

'Prevention at Sea'

would like to cordially invite you to the

Posidonia Exhibition 2016

Join us at HALL 3/STAND 3.221

to share and exchange views on the outlook of the Shipping Industry, become updated on the 'PaSea' services and our Marine Risk methodology as well as experience the **newly developed Maritime Software application**

'ε-ORB'

(Electronic Oil Record Book)

The 'ε-ORB' provides a secure, easy, efficient and effective alternative to the traditional paper Oil Record Book. Designed and **certified** by **Lloyd's Register** in accordance with the MARPOL Annex I reg. 17&36 and the IMO Circ. 736/Circ.2 requirements, the 'ε-ORB' was created to establish **transparency, credibility and traceability**.

We are an **ISO 9001 LR certified Marine Risk & Software Firm by Lloyd's Register**, born to prevent the negatives and promote the positives:

- ⚙️ **Marine Risk Assessment for Vetting Purposes**
- ⚙️ **Maritime Software Development**
- ⚙️ **Maritime Consultancy**
- ⚙️ **Maritime Training Activities**

Making prevention a habit!
